✓ Predict the output of following program. Assume that the numbers are stored in 2's complement form. *1/1

```
#include<stdio.h>
int  main()
{
   unsigned int x = -1;
   int y = ~0;
   if (x == y)
      printf("same");
   else
      printf("not same");
   return 0;
}
